Practitioner's Docket No. M1-195-015P1RCPA1DV1M

REMARKS

In the Office communication of February 7, 2003, the examiner requested that this application comply with sequence rules (37 CFR 1.821-1.825) by identifying sequences in Figures by SEQ ID NO:. In response, Applicants have submitted herewith replacements for Figures 2 and 5 identifying sequences presented in these Figures by SEQ ID NO:. These SEQ ID NO: identifiers match sequences included in the sequence listing submitted originally on June 6, 2002. For convenience, Applicants have included herewith a new copy of the sequence listing in paper and computer readable forms. These new copies of the sequence listing are updated with the new Attorney Docket Number for this application and updated to make descriptions of the sequences in fields <223> match the descriptions in the specification. No change has been made to the sequences. No new matter has been added.

This paper is being filed timely within the 30 day deadline provided in the Office communication. No additional extensions of time are required. In the event any additional extensions of time are necessary, the undersigned hereby authorizes the requisite fees to be charged to Deposit Account No. 501668.

Entry of the amendments made herein is respectfully requested.

Respectfully submitted,

4 March 2003 MILLENNIUM PHARMACEUTICALS, INC.
